

**NASA WV EPSCoR
Travel Grant Program
Application Form**

NASA WV EPSCoR Program is pleased to provide support to researchers at West Virginia colleges and universities to travel to NASA field centers or NASA headquarters to meet and initiate collaborative projects with NASA scientists. Travel can be for a faculty member to travel to a NASA Center, to another collaborator on a potential externally funded NASA project, or to present previously funded NASA work at a conference (*in this case funds can be used to support a graduate student who is first author on a presentation*). Applicants can also request funds to invite prominent researchers to their campus to participate in research colloquium or to discuss collaborations.

Each applicant may request up to \$2,500 of NASA WV EPSCoR funds to be supplemented with at least a 2:1 cost share from the applicant's home institution. A summary of the event/activity and expense report will be required at the completion of the proposed activity. Please do not exceed the space provided on the attached form. Applications will be reviewed on an on-going basis.

NASA funds cannot be used for foreign travel.

Please send the completed application and all attachments in a single PDF file to Candy.Cordwell@mail.wvu.edu

For all questions regarding budget-related or proposal format, please contact the NASA WV EPSCoR office :

Telephone: (304) 293 - 4099
