TMC Technologies Announces Friday, October 18 Open House and Recruiting Event

PLEASANT VALLEY — [TMC Technologies \(TMC\)](#), a leading small business provider of advanced technology solutions, is excited to announce an Open House and Recruiting event on Friday, October 18, 2024. The event will be held at TMC's headquarters at 2050 Winners Drive, Fairmont, WV, from 11:00 a.m. to 1:00 p.m. and from 4:00 p.m. to 6:00 p.m.

This event is an excellent opportunity for job seekers and community members to learn more about TMC Technologies, our innovative projects, and the career opportunities we offer. Attendees will have the chance to:

Meet #TeamTMC: Engage with our talented professionals and leadership team to understand our company culture and values.

Explore Future and Current Career and Internship Opportunities: Discover a variety of open positions in fields such as software engineering, software development, senior systems engineering, cloud computing, program management, and more.

Learn About TMC Technologies's Innovative Product Line: Take a peek at two groundbreaking small satellite technologies: the **FlexSat™** and **Small Satellite Digital Twin (SSDT™)**.

Networking: Connect with industry professionals and like-minded individuals.

"We are thrilled to open our doors to the community and potential new team members," said Wade Linger, CEO & President of TMC Technologies.

"This event is a great way to showcase our commitment to innovation and excellence and to find talented individuals who share our passion for technology and problem-solving," Chief Operating Officer and Executive Vice President Jeff Edgell added.

Refreshments will be available, and attendees are encouraged to bring their resumes and be prepared for on-the-spot interviews.

For more information, don't hesitate to contact John Dahlia at TMC Technologies at (304) 276-3161 or by email at john.dahlia@tmctechnologies.com.

###

About TMC Technologies

[TMC](#) is a leading small business innovator in advanced technology solutions recognized as one of the best small businesses to partner with, not just in West Virginia but nationwide. TMC is not just a technology company; we're a team of visionaries, engineers, and problem-solvers driven by a common goal: to shape a brighter future. Our diverse expertise spans various domains, including artificial intelligence, SAFe/agile and DevSecOps software development, cybersecurity, mission assurance & full lifecycle development, modeling/simulation, digital twin technology, cloud computing, and project management. This collective proficiency enables us to provide comprehensive, tailored solutions that cater to the unique needs of our customers.
